

# Kaedi ya go tshola le go tlhokomela leruo sentle

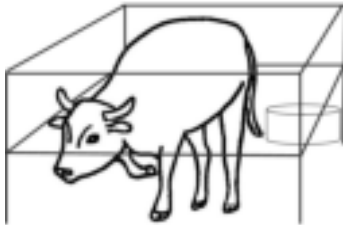

Mo Afrika Borwa diphologolo di nale ditshwanelo go ya ka Animals Protection Act No 71 og 1962

**Batho b aba dirang ka leruo ba tshwanetse go di tshola sentle le ka botho, go netefatsa gore ga di gobale le go sa itekanele. Ba tshwa-netse go dira se se mo molaong**

O seke wa thlakanya diphologolo tse ditswang mafelong a farologaneng. O seka wa thlakanya diphologolo tse di sa tshwaneng.

2. Diphologolo tse di bogale kgotsa di sa laolege, dithloka go kgaogangwa le diphologolo tse dingwe

### Oseka wa dirisa

- Sebepi
- Peipi ya tshipi
- Tshipi
- Thobane
- Mathlapa mo dipologolong

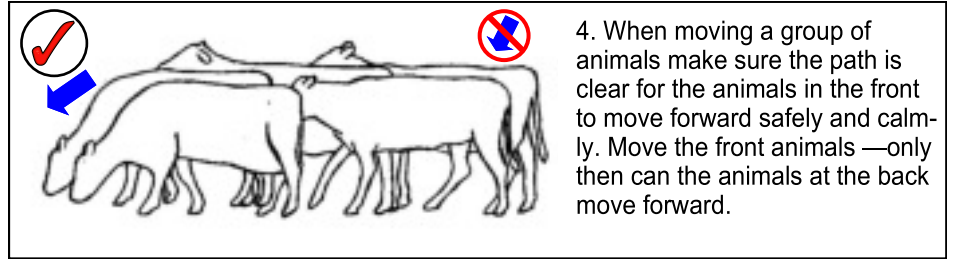

3. Diphologolo ga di a tswanela go gogiwa ka boboa, moriri, dinaka, letlalo, ditsebe, mogatla kgotsa maoto

Diphologolo tse di ikhuditseng go sena modumo dilaolega sentle.

**SOUTH AFRICAN NATIONAL STANDARD**  
Humane handling and facilities for the protection of livestock at shows, auction sales, vending sites and livestock pounds

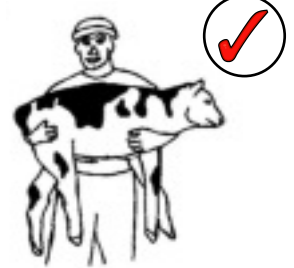

4. When moving a group of animals make sure the path is clear for the animals in the front to move forward safely and calmly. Move the front animals —only then can the animals at the back move forward.

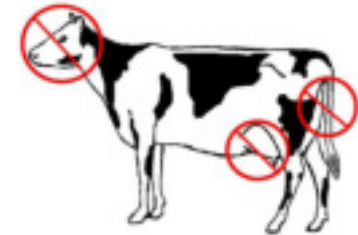

5. Pigs should be moved with pig boards.

6. Young animals without their mothers do not herd easily and may need to be lifted or carried.

7. Prodders may only be used now and then (intermittently) on cattle (excluding calves) and never to sensitive parts of the body such as face and genitals.

8. Only battery operated and rechargeable prodders may be used only when necessary and only on cattle (excluding calves).

**A good stockman handles animals CALMLY and QUIETLY**

**NO Shouting, Hitting, Tail Twisting, Beating Kicking or Chasing**

**Report Problems to National Council of SPCAs**
